John Delvac
Arrowhead Landfill
11175 Cicero Drive, Suite 100
Alpharetta, GA 30305

Dear Mr. Delvac:

This agency has received and evaluated the application submitted for the installation of fifteen gas vent flares at Arrowhead Landfill in Perry County, AL. A review of the potential emissions from the proposed flares has led to the determination that no state or federal emission standards are expected to be exceeded. Therefore, an Air Permit for this operation will not be required at this time.

If, in the future, it is determined that the emissions from this project are greater than expected or complaints are received, a re-evaluation concerning possible permitting will be made at that time. Should Arrowhead Landfill wish to make modifications to this process that would increase emissions, the Department should be notified prior to implementation of these changes. This also does not relieve Arrowhead Landfill from complying with any applicable regulation adopted in the future by this agency.

If you have any questions, please contact John Robert Gill in Montgomery at (334)-271-7866.

Sincerely,

A handwritten signature in black ink that reads "Ronald W. Gore".

Ronald W. Gore, Chief
Air Division
